interpack alliance

PROCESSING & PACKAGING

NEW UMBRELLA BRAND FOR TRADE FAIRS IN PROCESSING AND PACKAGING

Besides interpack itself – the flagship trade fair that gives this family its name – the interpack alliance will span all international events staged by Messe Düsseldorf under its Processing & Packaging portfolio. The interpack alliance emerged out of interpack's world leading processing and packaging trade fairs to enable networking and sharing of expertise between interpack and swop, the processing and packaging trade fair targeting not only China but the whole Asian region. As a member of the interpack alliance, Shanghai world of Packaging (swop) will benefit from this too.

"The establishment of the interpack alliance as the umbrella brand was a logical step underlining our unified strategy. It stands for our international expertise in the packaging sector and related process industries while at the same time communicating the leading role of interpack," comments Bernd Jablonowski, Global Portfolio Director at Messe Düsseldorf for the Processing & Packaging sector.
